

Cool Kids Craft Ideas

Sensory Worksheets for Kids

Use this simple worksheet to help toddlers, preschoolers and kindergarten children learn the different senses. These worksheets address all the five senses in one way or another. If you can't find (or don't have) some of the objects in this worksheet, just replace them with something similar or simply read the sentences and tell a brief story if you like to help your child guess which sense they are using.

Which Sense(s) are you using when.....

When I drink my apple juice

1. When I sip my apple juice, I _____ something sweet.
a) See b) Hear c) Taste d) Smell e) Touch
