Sensory Worksheets for Kids

The World Around Me!

Use these sensory worksheets to have your child describe the different sights, sounds, smells, tastes and touch of items around the classroom or house. For the older children have them write in the blanks themselves. For younger kids you can have them describe the different sense and you write in what they say.

You can use each worksheet format or just pick one and print off enough for the number of objects and children.

Worksheet format #1

Object _____

This object is the color _____. I see that the shape is _____.

I used my eyes to see this color and shape. This is using my sense _____.

When I sniff the object it _____ like.

When I hold this object it feels like _____. When I feel it I am using the sense of _____.

If I move the object I hear _____. This is using my sense of _____.

If I touch this to my tongue I taste _____.

Worksheet format #2

For this worksheet you simply pick out a few objects and then have your child describe something about it for each of their five senses.

Object _____

Sense of Sight

It looks like _____

Sense of Sound

It sounds like _____

Sense of Smell

It smells like _____

Sense of Taste

It tastes like _____

Sense of Touch

It feels like _____
